

THE D67M HYDRANT

QUALITY GUARANTEE

CLOW Canada's Premier Fire Hydrant incorporates several new design features and improved components for increased performance in firefighting, along with greater durability, economy and convenience. These hydrants are manufactured in Canada to the highest standards of quality - every unit is thoroughly tested to ULC/FM & AWWA before leaving the CLOW factory. Lubrication is assured through the Premier's unique Hydra-lube™ mechanism.

MAINTENANCE

The Premier can be rotated to any position - during or after installation - without disturbing the working mechanism. The rugged Premier stands up easily to traffic damage. It is designed for easy upkeep, repair and replacement of parts; its internal assembly can be removed and replaced in 20 minutes, without excavation. Alternative design options and accessories serve a wide range of municipal and industrial needs.

ADVANTAGES

- Efficient compression-type hydrant
- Factory-lubricated operating mechanism effectively o-ring sealed for long and efficient operation
- Very low opening and closing torques
- Automatic drainage
- Positive sealing with o-rings at operating nuts, operating housing, seat, bronze casing and seat
- Durable and positive seating
- Easy multiple positioning
- Safety stem coupling and four safety segments
- Internal parts easily removed - bury easily increased

MADE IN CANADA MATTERS!

For over 175 years, CLOW Canada has been proudly making quality products in Canada for the Waterworks industry.

Established in 1834, CLOW Canada is the only national manufacturer of Fire Hydrants for municipal and industrial fire protection.

All of our products meet and/or exceed all industry third party certifications such as AWWA, UL, ULC, FM, ASTM and NSF. Our products are designed to stand up to the unique challenges encountered due to extreme Canadian Climate.

At our manufacturing facility in Saint John, NB and our warehouse in Medicine Hat, AB our comprehensive facilities and innovative technologies make us an economic, safety, environmental and community leader.

From safety and environmental responsibility to employee training and community outreach, we work hard every day to make sure we are the best we can be.

When making your choice for quality products with a strong history, remember, "Made In Canada Matters".
