Floor Stand

A25650 Floor Stand—NRS

The **A25650 Floor Stands** are of high strength ductile iron, and are a full 34 1/4" tall. They can be provided with extension stems of any material specified.

NSF-61 Epoxy Coated.

A25655 & A25655-SS Indicating Floor Stands

The **A25655 Indicating Floor Stand** is designed to be used with non-rising type valves where open/close position is needed. Position is shown utilizing a bronze pointer on a threaded internal stem.

NSF-61 Epoxy Coated.

The **A25655-SS Line** is our fabricated Stainless Steel Floor Stand. It can be provided as indicating or non-indicating, with extension stems.

Extension Stems and Floor Boxes

Extension Stems

Extension Stems made to your specifications as to length, material and operators. Extension Stems are available for almost any type of valve and configuration.

A25700 Floor Box Plain

A25700-B Bushing Type

The A25700 & A25700-B Floor

Boxes are designed for use with non-rising stem valves. Installed in concrete floors or slabs, they provide support for the extension stem and a cover for the operating nut on the stem.
